

MISSION TRIP

FAQ'S

HOUSING

Teams will stay together in our on-site health center, which comfortably accommodates up to 16 people. This creates a safe, simple, and community-focused environment where you can rest, connect, and prepare for each day of ministry.

WHAT WILL WE DO?

Each trip includes hands-on projects that directly serve the community, such as home repairs, delivering food baskets, and installing stoves. If your group feels called to a specific type of project, we're happy to work with you to make that happen.

Project costs are not included in the base trip price and will be determined based on the scope and materials needed. We recommend planning for approximately \$1,000–\$2,000 to fund project work and maximize your impact during the trip.

FOOD

All meals are provided during your trip, with three meals a day included. You'll get to enjoy authentic Guatemalan cuisine while sharing meals together as a team—an important part of the overall experience and fellowship.

FUN DAY IN ANTIGUA

We believe in building relationships and enjoying the experience together, so each trip includes a fun day in Antigua. You'll have time to explore, shop, and take in the beauty and culture of this historic city.

TRANSPORTATION

Transportation is provided throughout your trip, including airport pick-up and drop-off. For groups larger than five, we will rent a van to accommodate everyone comfortably. The van rental cost is \$100 per day and will be added in the group's overall trip expenses.

WHAT DOES IT COST?

\$40/Night per person to include housing and food

For groups larger than 5, an additional \$100 a day to rent a van will be added to group cost.

Project costs are not included in the base trip price. All projects will be coordinated with your team in advance, and pricing will vary depending on the scope and materials needed. We recommend planning for approximately \$1,000–\$2,000 for the group to fund project work during your trip.
